Holiday Inn Express Sheffield

The eight-storey 161-bed 'next generation' Holiday Inn Express Hotel, the first of its kind in any major UK city, is within walking distance of Sheffield city centre and overlooks the River Don. The £10 million landmark building on Blonk Street, features almost 200 windows fabricated from Senior Architectural Systems' aluminium range, which was chosen for its impressive performance results.

SENIOR **ALUMINIUM** SYSTEMS™

Holiday Inn Express, Sheffield

Architect:
Henry J Lyons & Partners,
Liverpool

Main Contractor:
J F Finnegan Ltd

Installer:
Alusec UK Ltd

Products:
SPW600 Casement Windows
SMR900 Curtain Wall

The 'limited service' hotel is fitted out to a higher specification than a standard Holiday Inn Express with redesigned bathrooms and bedrooms, built around the group's latest ergonomic layouts and features a spacious ground floor which uses SMR900 series curtain walling to complement the building's high weather resistance and thermal performance.

SENIOR ALUMINIUM SYSTEMS™

Senior Aluminium Systems is a division of Senior Architectural, the major UK supplier of aluminium and timber fenestration solutions designed to the highest standards.

Operating from three strategically situated centres at Doncaster, Newport and Livingston, Senior's maintains its original emphasis on customer service and local availability, and forming long term, mutually beneficial relationships with fabricators, architects and contractors.
