Grand Pier Weston-super-Mare

Following the devastating fire of the historic Grade II listed historic Weston-super-Mare Grand Pier, a futuristic new pier pavilion was designed by Bristol based architects Angus Meek. The concept was chosen from six designs, shortlisted by the owners of the pier. To realise the ambitious plans for a cutting edge new pier, Senior Architectural Systems was the obvious choice for high performance fenestration.

SENIOR **ALUMINIUM** SYSTEMS™

Grand Pier, Weston-super-Mare

Architect:
Angus Meek Architects

Main Contractor:
John Sisk & Sons Ltd

Installer:
Elite Aluminium
Systems Ltd

Products:
SFG Ground Floor System
SMR900 Curtain Wall
SPW300 Vent Inserts
SPW600
SD Doors

The architecturally striking envelope features a host of state-of-the-art glazing solutions, including aluminium curtain wall and advanced thermally efficient windows and doors, all anodised in a marine quality silver finish to ensure maximum protection against the harsh elements of a British winter in the Bristol Channel.

Spencer Back, architect and Director of Angus Meek said, "We decided from a very early stage that what was going to be right for Weston was not some abstract architectural solution. We had a firm view that it should be wholly modern and made of new materials, and we wanted to make sure the public got a sense of seeing a view of the inside from the outside."

SENIOR ALUMINIUM SYSTEMS™

Senior Aluminium Systems is a division of Senior Architectural, the major UK supplier of aluminium and timber fenestration solutions designed to the highest standards.

Operating from three strategically situated centres at Doncaster, Newport and Livingston, Senior's maintains its original emphasis on customer service and local availability, and forming long term, mutually beneficial relationships with fabricators, architects and contractors.
