

Case study | Health

Primary Care Centre Musselburgh

The £20 million Centre boasts a number of green credentials, including a combined heat and power plant which generates approximately ten per cent of its own electricity, a sedum roof and Senior's Hybrid timber and aluminium curtain wall system.

SENIOR **HYBRID** SYSTEMS™

Primary Care Centre, Musselburgh

Architect:
JM Architects

Main Contractor:
Dawn Construction

Installer:
Marshall Brown

Products:
Hybrid Series 3 Curtain Wall

BREEAM rating:
Excellent

The building hosts a range of services including three local GP practices, paediatric and adult outpatient clinics, speech and language therapy, clinical psychology, children's services, podiatry, physiotherapy, and community nursing.

The investment in the NHS facility offered the architects the chance to design to a BREEAM 'Excellent' rating featuring cedar cladding to the exterior. The interior, using Senior Architectural Systems Hybrid products, benefited from a bright, modern working environment, using natural daylight from the large feature curtain walling and windows.

SENIOR HYBRID SYSTEMS™

Senior Hybrid Systems is a division of Senior Architectural, the major UK supplier of aluminium and timber fenestration solutions designed to the highest standards.

Operating from three strategically situated centres at Doncaster, Newport and Livingston, Senior's maintains its original emphasis on customer service and local availability, and forming long term, mutually beneficial relationships with fabricators, architects and contractors.
